Web applications & mobile testing

PROFILE

Full Stack Web Developer building corporate websites, admin panels and business web applications with React, Next.js, JavaScript, PHP, C#/.NET, SQL and Supabase. Takes an active role across analysis, frontend/backend development, database design, testing, deployment and maintenance. A delivery-focused developer with strong problem-solving skills who adapts quickly to new technology stacks.

WORK EXPERIENCE

Bilitro Software & Media

August 2024 – Present

Full Stack Web Developer | Ankara

- Built end-to-end web solutions for corporate websites, landing pages, admin panels and content management needs.
- Owned frontend, backend, maintenance, revisions and production deployment across the delivery of 50+ projects.
- Developed responsive, modern, performance-focused interfaces with React, Next.js, JavaScript, PHP, HTML/CSS and GSAP.
- Worked on databases, CRUD structures, form flows and admin panel processes using PHP, C#/.NET, SQL, MySQL, Supabase and phpMyAdmin.
- Delivered API integrations, client-server data communication, content management and user/customer data flows.
- Carried out technical setup, troubleshooting and maintenance across cPanel, hosting, domain/DNS and production environments.
- Produced digital solutions tailored to client needs in coordination with design, content and business development teams.

Pronet Security Services

September 2023 – May 2024

Electrical Technician

- Worked on electrical and security system installations, on-site fault diagnosis and technical support.
- Performed technical inspections at customer locations, supporting the smooth flow of day-to-day operations.
